

CURRICULUM VITAE

Siyu (Louisa) Chen

Contact: siyu.chen@emory.edu

EDUCATION

Doctor of Philosophy **Emory University, Atlanta, GA**
2024 – Present Cognitive and Computational Psychology
Research Interests: *Bilingualism; Cognitive Control; Language Control; Sustained Attention.*

Master of Arts **Emory University, Atlanta, GA**
2024 – 2026 Psychology
Master's Thesis: *Exploring the Association Between Bilingual Language Experience and Individual Differences in Inhibitory Control*

Bachelor of Arts **University of Washington, Seattle, WA**
2020 - 2024 Cum Laude || Major: Psychology (Honors); Minors: Data Science, Informatics
Honor's Thesis: *Investigating Break Interventions and Predicting Mind-Wandering During Sustained Attention to Response Task (SART)*

HONORS, AWARDS, AND FELLOWSHIPS

2025 Laney Graduate Student Council Travel Grant (\$250), Emory University
2024 - 2029 Laney Graduate School Fellowship (\$2500 each year), Emory University
2023 - 2024 Psychology Department Honors, University of Washington
2020 - 2024 Annual Dean's List, University of Washington

PUBLICATIONS

Chen, S., Stocco, A., & Yamasaki, B. L. (2026). *Maintaining performance without reducing mind-wandering: Exploring the impact of short breaks during sustained attention tasks* [Manuscript in revision].

Chen, S., & Yamasaki, B. L. (2026). *Exploring the influence of bilingual language experience on inhibitory control using psychometrically robust measures* [Manuscript under review].

Eligado, G. M., Cleveland, A., Ramirez, E. G., Kolan, R., Madison, S., Becker Golde, L., Bell, M. R., Mishra, A., Chow, L., Gonzalez, S., Sbai, C., Ovbiebo, N. A., Harris, B. A., Hinrichsen, N., Callis, S. E., **Chen, S.**, Kanter, J. W., & Manbeck, K. E. (2026). "I am the expert of my own self, and this is what I choose": A qualitative investigation of diverse cultural experiences with birth control. *Reproductive Health*. <https://link.springer.com/article/10.1186/s12978-026-02413-x>

Chen, S., Stocco, A., & Yamasaki, B. (2025). Short intervention during sustained attention tasks preserves performance without reducing mind-wandering. *Proceedings of the Annual Meeting of the Cognitive Science Society*, 47. <https://escholarship.org/uc/item/61r4n434>

CONFERENCE PRESENTATIONS

Li, J. L., **Chen, S.**, Peng, P., Martinez-Lincoln, A., & Yamasaki, B. L. (2026, July). *A meta-analysis on the relation between executive functioning and second language reading* [Poster presentation]. The 36th Annual Meeting of the Society for Text and Discourse, Charlotte, NC.

Chen, S., Wang, C. & Yamasaki, BL. (2025, Nov). *Revisiting Inhibitory Control Measurement: Reliability, Indicators, and Trial Effect* [Poster presentation]. The 66th annual meeting of the Psychonomic Society, Denver, CO.

Chen, S., Li, J. & Yamasaki, BL. (2025, Nov). *Neural Engagement of Inhibitory Control During Language Tasks in Spanish–English Bilingual Children*. Poster at the Better Together Conference 2025, Atlanta, GA.

Chen, S., Stocco, A. & Yamasaki, BL. (2025, Aug). *Short Interventions During Sustained Attention Tasks Preserve Performance Without Reducing Mind-Wandering*. Poster at the 47th annual meeting of the Cognitive Science Society, San Francisco, CA.

RESEARCH TALKS

Emory Psychology Research Seminar (2026, April). Exploring the Association Between Bilingual Language Experience and Individual Differences in Inhibitory Control.

Emory Psychology Research Seminar (2025, April). Advancing Inhibitory Control Assessment: A Review of Existing Approaches and New Methodological Proposal.

RESEARCH EXPERIENCE

- | | |
|----------------|---|
| 2024 – Present | <p>Brain, Behavior, and Broader Learning Lab (BaBL), Emory University, Atlanta, GA
 <i>Graduate Student</i>
 Collect/manage/analyze/interpret data, and present results of lab projects. Research relevant to the study of inhibitory control and bilingualism.
 <i>PI:</i> Brianna L. Yamasaki, Ph.D.</p> |
| 2023 – 2024 | <p>Cognition and Cortical Dynamics Laboratory (CCDL), University of Washington, Seattle, WA
 <i>Undergraduate Honors Student</i>
 Design research studies, earn IRB approval, collect/manage/analyze/interpret data, and present results of independent projects. Research relevant to the study of sustained attention, mind-wandering, machine learning prediction, and intervention.
 <i>PI:</i> Andrea Stocco, Ph.D.</p> |
| 2022 - 2024 | <p>Health Disparity Undergraduate Research Group, University of Washington, Seattle, WA
 <i>Undergraduate Researcher</i>
 Collaborated in a multicultural team exploring the influence of culture and identity on contraception perceptions. Participated in qualitative research from data collection to analysis, applying thematic analysis method.
 <i>Mentor:</i> Katherine Manbeck, Ph.D.</p> |
| 2022 - 2023 | <p>Depression & Anxiety Computational Neuroscience Lab (DACN), Peking University, China
 <i>Undergraduate Research Assistant</i>
 Literature review and research proposal writing for multiple lab projects. Assisted in proofreading of Dr. Peng’s book <i>The Modeler</i>. Research relevant to the study of story-telling human-robot interaction in psychological disorder diagnosis, and the mechanism of physical exercise on mental health among the economically disadvantaged students.
 <i>PI:</i> Yujia Peng, Ph.D.</p> |
| 2022 - 2023 | <p>Social Identity Lab (SIL), University of Washington, Seattle, WA
 <i>Undergraduate Research Assistant</i>
 Collect data and contribute to the lawyer recruitment process of lab projects. Research relevant to the study of prototypes and perceptions of sexual harassment.
 <i>PI:</i> Cheryl Kaiser, Ph.D.</p> |

2022 **Code and Cognition Lab, University of Washington, Seattle, WA**
Undergraduate Student Researcher
 Participated in the undergraduate research project "Two-Year Pathways Lablet". Mainly investigating social, cultural, and emotional factors influencing the two-year college students' interest in computer science.
PI: Amy J. Ko, Ph.D.

ADDITIONAL PROFESSIONAL EXPERIENCE

Jul 2023 - Sep 2023 **China Academy of Information and Communications Technology, Beijing, China**
Consultant of Biomedical and Health Intern in the BioTech Team
 Contributed to aggregating and analyzing the downstream applications of AI models, and writing the White Paper titled *Empowering the Healthcare Industry with Large AI Models*.

Jul 2022 - Sep 2022 **Changchun Psychological Hospital, Changchun, China**
Intern
 Shadowed attending physicians during outpatient consultations, assisted in organizing electronic medical records, coordinated patient schedules, and guided patients in navigating the hospital.

Jun 2021 - Sep 2021 **NetEase, Inc., Beijing, China**
Human Resource Intern
 Assisted YouDao marketing, finance, and product management teams in social recruitment.

TEACHING EXPERIENCE

Spring 2026 Guest Lecture, Intro Psych I: Psychobiology & Cognition, Emory University
 Spring 2026 Teaching Assistant, Intro Psych I: Psychobiology & Cognition, Emory University
 Fall 2025 Teaching Assistant, Lab in Experimental Methods, Emory University
 Spring 2025 Guest Lecture, Intro Psych I: Psychobiology & Cognition, Emory University

MENTORING EXPERIENCE

2026 Mentor, REU Mind, Brain, Body, and Behavior Program
 2025 - 2026 Mentor, NextGen Psych Scholars Program
 2018 - 2019 Tutor, High School Attached to Northeast Normal University

LEADERSHIP EXPERIENCE

2021 E-Board, Chinese Student Union, University of Washington
 2018 - 2019 President, Science Experiment Club, High School Attached to Northeast Normal University

PUBLIC OUTREACH & ACTIVITIES

2026 Volunteer, Atlanta Science Festival, Atlanta, GA
 2026 Panelist, Psychology Department Honors Panel, University of Washington, Seattle, WA
 2025 Volunteer, Music for Mental Health, Atlanta, GA
 2025 Volunteer, New American Pathways Summer Camp Brain Science Education, Atlanta, GA
 2025 Volunteer, Atlanta Science Festival, Atlanta, GA
 2025 Volunteer, Atlanta Regional Brain Bee, Atlanta, GA
 2021 Volunteer Tutor, East African Community Service, Seattle, WA

SKILLS

Software and Programming Languages: R, Python, Nilearn, AFNI, HTML, CSS, JavaScript, SQL, Dedoose.

Analyses: Regression, multilevel modeling, machine learning, text mining, factor analysis, sequential sampling models, and thematic analysis.

Language: English (professional fluency); Chinese (native fluency).
